

Changes to be made - Webpage 2

1. Loading page

Logo opening up to the landing page

ILCAPO

Logo in the middle top

Contacts button on upper left

Members button on upper right

Text (Yrsaclicks at the bottom)

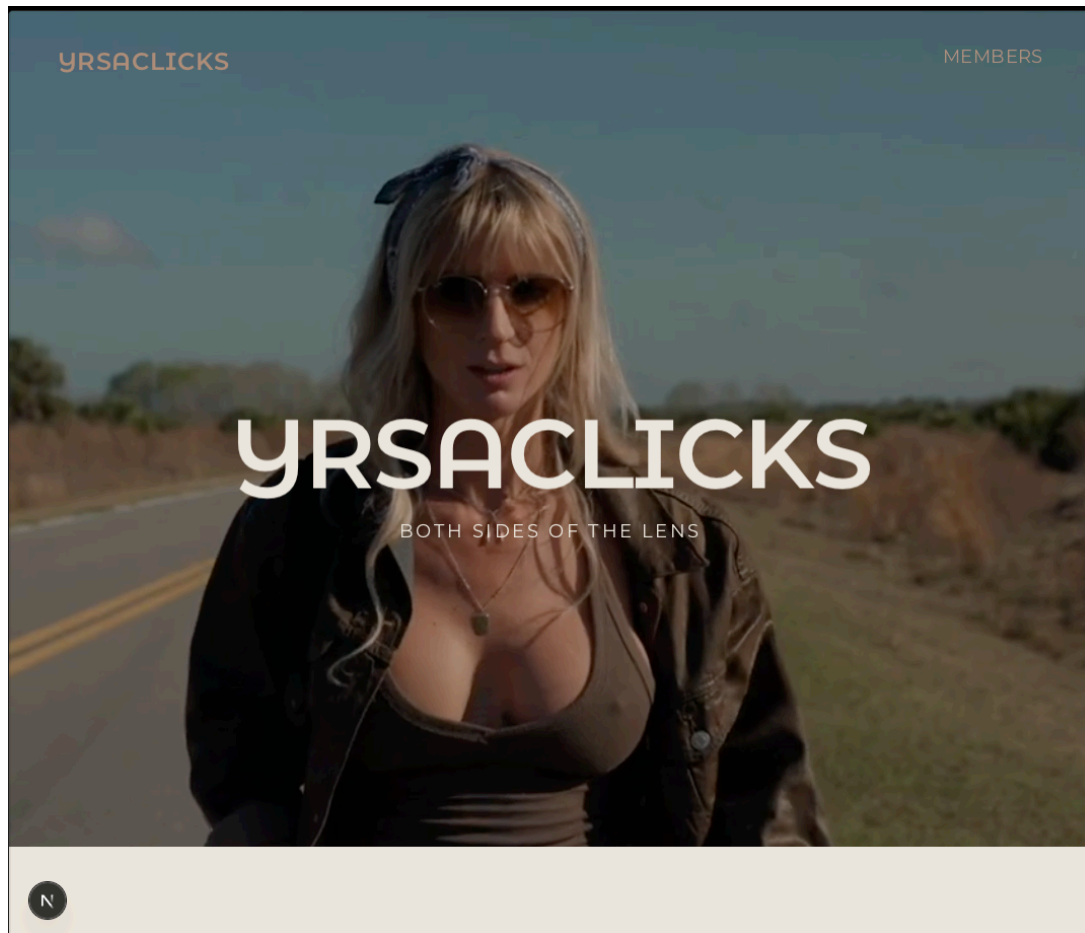

[CONTACTS](#)

[MENU](#)

ILCAPO

2. Landing page

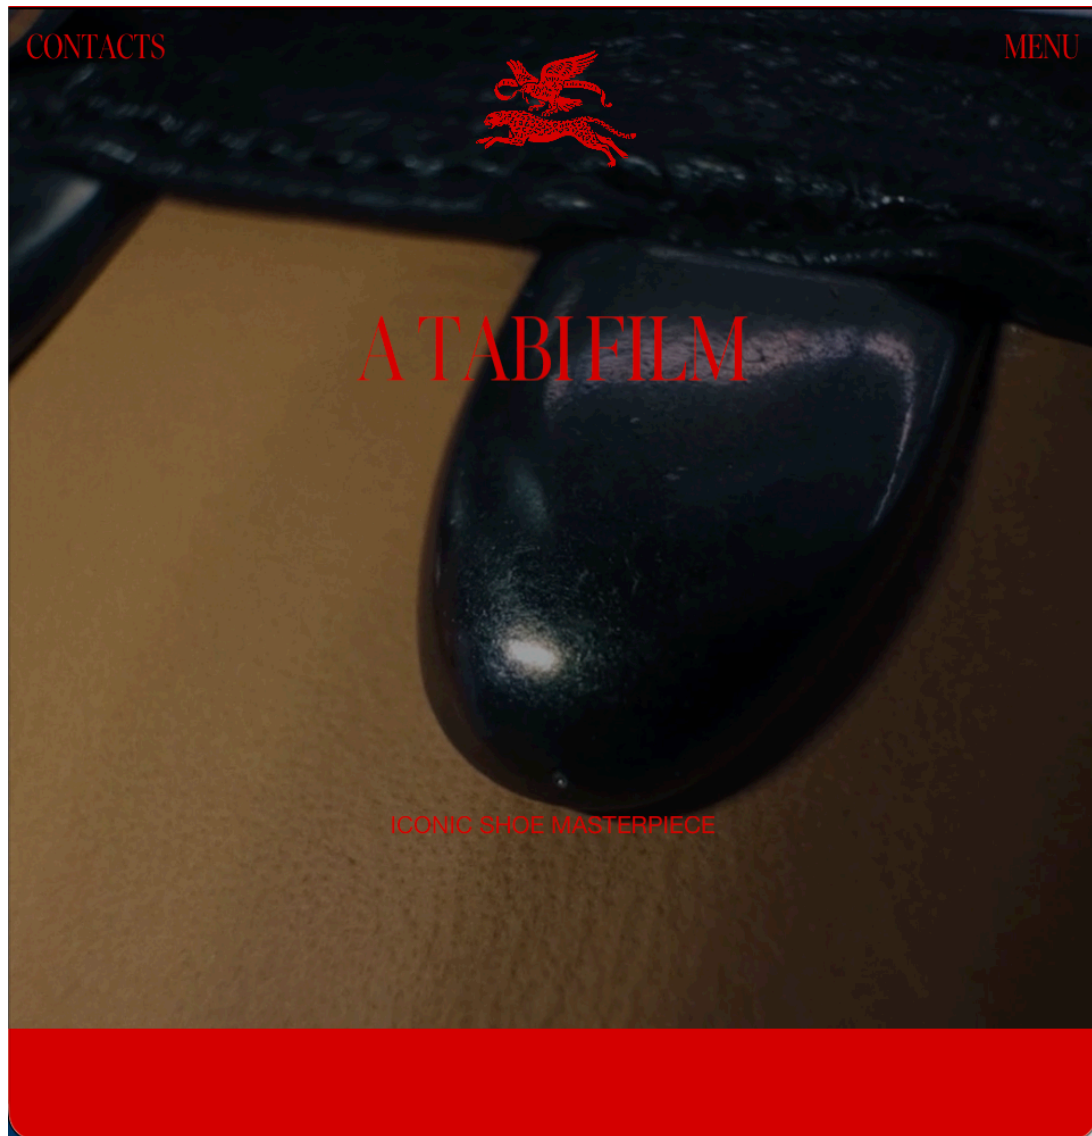

- the font to be changed to mynerve for Yrsaclicks and mostly Monseratt
 - the video doesnt need to be muted and doesnt have to be darken with an overlay
 - the hero/picture needs to be corner to corner

3. Next Pages

- scrolling transition looks like this
- the previous page stays and the next page goes on top of it but is starts off as a small square that becomes bigger and bigger

- then there will be an accent line underneath
 - the transition for the scrolling up is the same

4. Footer
